# Hub Cafe

**Since its beginnings in 2015, our Hub Café has become a thriving meeting place for the local community, people attending classes and social groups.**

**It is also a training ground for adults, including adults with a disability, where they can boost their hospitality and barista skills, as well as develop their confidence and job readiness for future employment.**

**This café has become an inclusive focal point for a number of social meet-up groups. Many new connections have been forged through the Coffee Catch Ups, and many of the older residents have credited the café for reducing their isolation.**

**Thank you for supporting this important initiative.**
